

Education Australia

Preferred Supplier 2025

Hello there!

Education Australia (EA) is a consultancy-based company bridging the gap between suppliers and the education sector.

With a wide range of funding allocated to schools and universities Australia-wide, these institutions must have access to accurate information and resources.

Education Australia Resource Guide is specifically designed to ensure this by connecting decision-makers across government and non-government schools, as well as universities, with our reputable suppliers.

Our primary mission is to inform education decision-makers of the latest products, services, and information to help them effectively utilise

funding for their facility. As a result, we carefully vet reputable companies to present as preferred suppliers for these decision-makers to engage.

Our concept is to help assist and improve the education sector as a whole whilst always having our clients at the forefront of mind, ensuring they are capitalising on exposure to this target market.

Education Australia provides a platform for your campaign, allowing you to communicate your message effectively, build targeted brand awareness, generate a return on investment, and enable your customers to reach you easily.

Education Australia provides you with a unique, targeted, and niche audience and platform – essential for the growth of your business.
